	27-Zip 16.04 (x64)			Igor Pavlov	6/01/2017
				Freedom	10/08/2018
	Google Chrome			Google Inc.	3/01/2017

Installing new version

IMPORTANT! For school environment we recommend you download & install the '**32bit'** version of Client software.

From the location you downloaded the new software file to, double click the 'FreedomClient.....msi' file to start the installation, then follow the steps, after the software has been installed you need to import the configuration.

After importing, you may be asked to restart the software, go ahead and restart.
